Subject: RE: Action needed: Upcoming Congressional Office Visits - WTR24 input

Hi Paul: Here's input from WTR24 – let me know if you have questions or want editing help. Thanks!

SF Bay

Rosemont Copper Mine: Hudbay Minerals, Inc., a Canadian integrated mining company, seeks approval for a new open-pit copper and molybdenum mine proposed for construction on approximately 3,655 acres of National Forest System land and 1,200 acres of private land southeast of Tucson, Arizona. The mineral deposit could reportedly produce up to 10% of the U.S. annual production of copper. The project would irreparably undo decades of public efforts to protect drinking water supplies, biological resources and sensitive aquatic ecosystems within the Cienega Creek watershed, which contains regionally rare, largely intact mosaics of the highest quality stream and wetland ecosystems in Arizona. The Los Angeles District of the Corps of Engineers recommended denial of the §404 CWA permit. The Corps' South Pacific Division is currently deciding whether to uphold or overturn the District's recommendation for permit denial.

Subject: FW: Action needed: Upcoming Congressional Office Visits

Dave, Gail, and Sam: We now need to prepare one-pagers for Congressional office visits by Alexis and/or SMT. The one-pagers will follow the format that we just used for the WGA members meeting with Pruitt (see attached examples). Due dates are 3/7 for Bay area visits and 3/9 for AZ visits. Since there will only be one paper for Bay area and one for AZ, please just provide bulleted key issues or projects and any talking points (like in examples). See suggested issues in Paul's email below (I highlighted in yellow), and provide input to Paul (can just cc me, so I know you responded). Thanks. Janet
